MR. THOMAS E. HOSTY, Chairman of the Board,  
BOARD OF TRADE OF THE CITY OF CHICAGO.

MY DEAR SIR:

In conformity with the rules of this Association, I herewith submit the One Hundredth Annual Report of the Board of Trade of the City of Chicago for the year 1957.

Respectfully,  
ROBERT C. LIEBENOW, President.

Our acknowledgments are due and are hereby tendered to The Wall Street Journal; The Davidson Commission Co., Chicago; United States Office of Foreign Agricultural Relations, Washington, D. C.; Union Stock Yards & Transit Company, Chicago; The Chicago Daily Drovers Journal; the United States Department of Agriculture; the U. S. Department of Commerce, Weather Bureau, Chicago, and all other sources from which information was obtained for this publication.

## REPORT OF THE ANNUAL MEETING

The Annual Meeting of the Association was held Thursday, January 27, 1958, in Room 438, Board of Trade Building, at 2:30 o'clock P. M. More than a quorum were present.

On motion duly made and seconded, the reading of the minutes of the last Annual Meeting was disposed with and the minutes as recorded approved.

On motion duly made and seconded, it was voted that inasmuch as the reports of the various committees have been approved by the Directors and have been printed for distribution to the members, the reading of these reports be disposed with and that they be approved as printed.

On motion duly made and seconded, it was unanimously resolved that the acts of the Board of Directors and Officers since the last Annual Meeting of the Association be and are hereby ratified and approved.

---

### ADDRESS OF THOMAS E. HOSTY, SR., CHAIRMAN OF THE BOARD OF TRADE OF THE CITY OF CHICAGO, GIVEN AT THE ANNUAL MEETING HELD ON JANUARY 27, 1958

A year ago at this meeting I told you that my election to the high position of Chairman of the Board of Trade of the City of Chicago was an honor of which I was very proud. Today I am more proud and gratified, for you have thought so highly of my efforts that you have re-elected me to the chairmanship.

Again I say to you that I shall handle the responsibility you have entrusted to me so as to reflect the greatest of credit on our Association. In addition, I will do all in my power to help the Chicago Board of Trade grow ever greater in its traditional service to the Nation.

Now, to business.

The farmers of our country have just completed a year in which crop output matched previous peaks and was achieved on the smallest acreage in years. More than a million people left the country's farms between April 1, 1956, and April 1, 1957, dropping the estimated farm census to 20,396,000 persons—4,662,000 fewer than 1950.

This exodus, and the technological changes which made it possible, presents a real challenge, and points up the increasing economic and sociological problems which must be dealt with, in new attempts to solve farm problems. These problems include surplus production, a cost-price squeeze, the results of expanding basic and applied research, and distribution—all of enormous magnitude.

For more than 25 years political planners have tried to solve these problems with a series of schemes, ideas, gadgets and gizmos which have had two things in common—they have all failed, and they all lead to more governmental infiltration.

One by one, these programs have fallen by the wayside under their own and at tremendous cost to the taxpayer. The latest of these is the soil bank, whose demise at the end of the 1958 crop year has just been announced. It was a good try—at our expense! But most of us are getting a little leery about paying for good trys.

The element of government infiltration is, in my opinion, the greatest threat to all of us. Fundamental philosophy that government giving breeds government control has never been more clearly demonstrated than under the farm programs. Some planners even now talk of drastic steps to control volume of production, not acreage, and of strict marketing quotas.

As might be expected, government control has expanded from the farm itself to take in many of the businesses associated or affiliated with the farming industry until today the very existence of some of them is seriously threatened. Our business is one example. What was for more than a hundred years a free market for farm products balanced by the age-old law of supply and demand no longer represents the best interests of either the producer or the consumer.

I have compiled some figures with respect to the weekly corn sales made by Commodity Credit Corporation over the last two years, and I believe these figures graphically illustrate the competition our industry faces from government.

Sales by Commodity Credit Corporation for the one week ending December 19, 1956, amounted to 4,504,000 bushels of corn. The following week, the Corporation sold 7½ million bushels of corn, and for the next 14 weeks sold never less than 6 million bushels of corn every 7 days. During the 60 week period commencing with October 10, 1956, and ending with November 27, 1957, the Corporation disposed of almost 350 million bushels of corn.

Is it any wonder that corn finally sold in the Chicago cash market this month at the lowest price in 9 years? Is it any wonder that our March corn future last week sold for the lowest price since February of 1958?

I hardly find myself agreeing with the C.C.C. Sales Manager's brochure wherein it states "Orderly marketing timed so as to not interfere with the individual farmer's marketing season and other merchandising techniques resulting from a coordinated sales policy have greatly reduced C.C.C. inventories without adversely affecting domestic or world prices".

Although this makes a rather dismal picture, I do feel it has a bright side for there is growing doubt about the possibilities of legislating prosperity for the agricultural segment of our economy. Within the past several months, two of the largest farm organizations have endorsed the principles of a free market for agriculture. Even more heartening than the support of the leaders of these organizations is the endorsement they are receiving from their membership.

A recent story in the *Prairie Farmer* makes this point. I quote the lead paragraph: "Any doubts you may have had about midwest Farm Bureaus reflecting the opinion of their membership may be laid to rest. Delegates to

the recent conventions gave strong backing to the general position of the American Farm Bureau Federation on national farm policy".

Let me quote five legislative steps from the convention address of Mr. Charles B. Shuman, President of the Farm Bureau, that I am sure will be of particular interest to you:

- "1. End farm supports at once as a means of fixing prices; use them only as a safeguard against extremely wide fluctuations.
- "2. Stop government purchase for storage as quickly as possible.
- "3. Require those who borrow government money to pay it back with interest; limit government purchase of crops to that for immediate relief of disaster at home and abroad.
- "4. Stop the flow of commodities into government storage; keep present stocks in storage except for prevention of spoilage.
- "5. Continue Public Law 480 only until present Commodity Credit Corporation stocks are sold, then abolish the law."

In addition, the Committee for Economic Development, a group of businessmen, has rallied in support of free markets.

As far as general business was concerned, last year was an extremely good year. National income, wages and salaries, retail sales, as well as gross national products, were all above 1956—some at record levels. Toward the middle of the year, the stock market began to indicate that business was down, however, and it was evident by Fall that a genuine change—call it a recession or readjustment—was taking effect.

Corporate profits were below the 1956 level, and the stock market suffered its greatest reverse in some 26 years.

So much for 1957—a real good, if not a truly great, year in many respects.

As for business in 1958 despite the President's optimistic statements and the fact that Congress is, even as I speak, busily embarking on a program in which economy will be a rare word and thought, many individuals feel that there will be a continuance of the decline in over-all activity for a little while. Just how long that "little while" will be is any one's guess.

Industrial production seems certain to continue to decline, and expenditures for new plants and equipment will not be as great as in the past year or two. There are many factors in the picture, however, which could offset these influences—easier money market conditions cannot fail to exert some force on general business as time goes on. In addition, personal consumption expenditures and retail trade seem headed for as high or even higher figures than last year, the continued rapid growth of our population will continue to mean large outlays for public facilities, and major industries, such as oil and aluminum, look forward to increased business this coming year. By no small means is the influence which will be exerted by the so-called "Sputnik Congress" and the increase in federal spending for national defense.

Perhaps we should pause here and consider what some of our experts, both in and out of Washington, are saying about next year's federal budget

and the long range spending race with the Soviets. Some of these gentlemen foresee such shocking possibilities for the early 1960's as:

1. A sharp increase in taxation placing an even greater tax burden on citizens than existed during World War II.
2. Rampant inflation that will result in individuals and corporations losing billions of dollars.
3. A sharp shift toward a controlled economy, including customer credit restrictions and price and wage ceilings.

This is not a program that is being advocated, but we must agree this is a likelihood, perhaps small, unless we are extremely careful with our finances. 1958 will certainly be a most interesting year.

In general, I feel we can face the future with every reason for optimism. The financial position of the Exchange is strong, and the building gives indication of being well-managed. This is a lasting tribute to previous administrations.

Our staff is efficient, experienced and loyal. In fact, they're more than that, or they wouldn't be working here. Let me digress for a moment to tell you that I think every person—from the president on down—has done a tremendous job for us all. In addition, I also feel that our officers and directors are capable in every respect and will conscientiously work to serve the best interest of the membership.

I hope the membership will continue to take a real interest in the affairs of the Association for I know the Exchange has progressed because its members have been so anxious and willing to give so freely of their time. I am positive the same attitude will prevail in 1958.

Thank you.

---

**REPORT BY ROBERT C. LIEBENOW PRESIDENT OF THE BOARD OF  
TRADE OF THE CITY OF CHICAGO AT THE ANNUAL MEETING  
JANUARY 27, 1958**

Mr. Chairman and Members of the Chicago Board of Trade: I shall confine my report for the most part to the operational and financial results of 1957.

Cash grain receipts increased 20,504,000 bushels compared with 1956 for a percentage increase of approximately 10%.

Inland Waterways receipts increased about 1% while carlot receipts were up almost 12%. Trucked-in grain receipts decreased about 6% and Great Lakes inbound receipts showed a fantastic increase of 148%. Corn and soybeans had larger receipts in 1957 than in 1956 while wheat, oats, rye and barley declined.

The volume of overall futures trading in grains, including soybeans, decreased 1,343,739,000 bushels or a percentage decrease of about 10%. Specifically, corn declined 19%, oats 27% and soybeans 24%. Crude soybean oil futures trading was off 15% from the previous year, and the volume in lard

declined about the same amount. Soybean meal futures trading declined 8%, and futures trading in cottonseed oil and grain sorghums showed marked declines. Cotton trading volume was off 54% from the previous year. Wheat and rye were the only commodities traded on the Exchange which had an increase in volume.

Price trends for most commodities traded on the Exchange generally edged downward during the year, wheat prices were down about 23¢ a bushel at the end of the year and corn, oats and soybean prices were from 14 to 27 cents a bushel lower.

Total dollar volume for trading, both cash and futures, was approximately \$25,041,000,000 down about 18% from our 1956 total. This decrease is attributable to a smaller volume of futures trading and generally lower prices of commodities traded on the Exchange.

The membership was assessed \$375 for dues in 1957, \$275 of which was allocated to the Capital Account and used for debt retirement. Since instigating our distribution of assessments between Capital and Operating expenses in 1948, each member has been assessed \$2,840 for Capital expense and but \$785 for Operating expense.

Our mortgage indebtedness was reduced last year by \$400,000 which leaves a balance now owing of \$3,000,000. Since 1948 we have reduced our mortgage indebtedness by \$4,907,800, which I am sure you will agree is an excellent record. Assuming we continue our present rate of debt retirement, we will still have a balance owing of approximately \$1,800,000 on December 15, 1960, when the mortgage expires. We should have little difficulty in then arranging short term financing to aid us in our debt retirement.

Our gross income during 1957 amounted to \$4,098,706.70 as compared to a gross income of \$3,966,218.39 in 1956. This is an overall increase of more than 3%.

Our expenses for 1957 amounted to \$4,103,518.54 or an increase of approximately 4% over 1956. This increase is explained in detail in the Financial Statement.

Net loss for the Association for 1957 was \$4,811.84 as compared to a profit of \$18,948.22 in 1956.

The building maintained a high percentage of occupancy during 1957 and while the rental market for office space remains competitive, agents for the building do not anticipate a vacancy problem. As in the previous year, the modernization emphasis for the building remained on airconditioning. Thirteen air handling units with duct were installed and work on a new condensing tower was started late in the year.

Two more elevators were converted to automatic operation making a total of ten automatic cars now in use. Two more are scheduled for conversion this year, which will mean that 12 of the building's 22 elevators will be equipped for automatic operation. The conversion from direct to alternating current continued and over 90% of tenant space has now been completed. In addition, public corridor and emergency lighting were also converted to alternating current during the year.

Reports indicate the building outlook for 1958 is optimistic and anticipated increased operating expenses should be offset by increased income.

Profit on the building in 1957 was \$433,732.54 excluding the fact that we occupy space equal to a net rental value of \$375,000, which should be added to the building profit.

In my report last year I told you of the new pension plan that had been adopted for the employees of the Exchange. During 1957, nine employees were retired under the provision of the plan and fifteen will become eligible for their benefits during 1958.

The new plan allows the Association to meet its social obligations insofar as employees' welfare is concerned in addition to benefiting from the opportunity to promote experienced and qualified personnel.

Our leased wire department enjoyed another successful year of operation which resulted in our being able to pass along savings to our subscribers in the form of reduced charges for the month of December. The year showed a net increase of 23 tickers and an additional 6 cities served. The number of tickers in operation reached an all-time high of 704 during October and at the year's end there were 687 tickers in operation and 262 cities being served as compared with 371 tickers in operation and 145 cities served when the Exchange took over the operation of the circuit in May of 1950.

Requests for the five public relations pamphlets which explain the functions of a commodity market reached an all-time high during 1957 as more than 230,000 copies were sent out to schools and the general public. By the end of 1957 over 24,300,000 people have seen the film, "AFTER THE HARVEST", which was first shown during the fall of 1955. The demand for prints of the film remain very strong. The public service radio series was continued for the sixth consecutive year with three records, each containing 4 interviews, released at four month intervals to an average of better than 500 radio stations throughout the country. It is estimated that the series is heard by several million people.

The transportation Department was active during the year in cases involving Chicago as a potential port, insofar as export demurrage and switching is concerned and also on negotiations with carriers to reduce grain rates. It is hoped that a worthwhile set of reduced rates on coarse grains and soybeans from the territory generally west of Chicago will find their way into the tariffs before the 1958 crop movement.

I should also like to briefly mention three projects worked on during last year which may be of interest to you.

First: A Committee continued study on the possibilities for establishing a futures contract in loose lard by having further meetings with packer and processing representatives so as to work out details on standards, storage, billing and so forth.

Second: A Committee continued study on the installation of an electric board marking system as well as a general over-haul of our entire ticker system.

## XXVII

Third: The Board of Directors, on October 15, 1957, unanimously adopted a resolution urging the Governors of the Clearing House to conduct a test on corn as the only means of learning whether mechanization through the use of tabulating equipment is feasible.

One of the most unpleasant features of 1957 was the fact that it saw the death of 39 members, the greatest number of deaths percentagewise in the history of the Association. Our collective ranks were further depleted by the untimely passing of Charles Hamper, who served the Association for over 48 years.

The greatest single problem still facing us today is that one created by government participating in grain industry affairs, which can best be illustrated by unofficial indications from Washington that United States exports of rye and grain sorghums will be entirely out of C.C.C. inventory this year. In addition, corn exports will be over 95% from C.C.C. stocks and wheat exports will be about 35% from C.C.C. holdings. Although the United States Department of Agriculture has stated on many occasions that it desires to have export business returned to the private trade, it would appear the trend is actually in reverse. Many of us had hoped the natural course of events or the obvious fallacies of the present situation would force a gradual return to a grain business which would be operated by the grain trade for the grain trade. This hope was against evidence to the contrary as well as better judgment for the solution of our problem is too deeply imbedded in bureaucracy and self-interest and too mired in socialistic and Utopian fallacies to respond to the simplicity of reason and logic.

I am convinced the only course is forceful and effective legislation to eliminate once and for all government interference in our business for, in my opinion, peaceful co-existence with Commodity Credit Corporation has long since slipped quietly by.

In closing I should like to express my appreciation to the officers, Directors and Members of the Association for the fine cooperation and friendship extended to me throughout the year. I should also like to thank the employees of the Association, our attorneys, auditors and many other friends who helped to make this year a most pleasant one for me.

---

# REPORT OF BOARD OF TRADE CITY OF CHICAGO

## WEIGHING AND CUSTODIAN DEPARTMENT

Annual Report which reviews the work of the Weighing and Custodian Department for the year 1957.

### CARS WEIGHED

In Store (all Cars, all Commodities) .....	72,733
of which, 49,614 are Inbound Cars of Grain	
of which, 6,738 are Soy Beans	
of which, 6,181 are Straight Transfers	
of which, 5,014 are Cross-Town	
of which, 5,186 are Miscellaneous	
Out of Store (all Cars, all Commodities) .....	58,515
of which, 38,029 are Outbound Cars of Grain	
of which, 2,992 are Soy Beans	
of which, 5,014 are Cross-Town	
of which, 12,480 are Miscellaneous	

TOTAL CARS WEIGHED.....131,248

NOTE: We weighed 128,752 cars in 1956

### GRAIN WEIGHED TO AND FROM BOATS

In Store by Lake Vessels and Barges.....	74,828,240 Bushels
Out of Store, by Lake Vessels and Barges.....	25,367,820 bushels
TOTAL .....	100,196,060 Bushels

NOTE: We weighed 87,354,704 Bushels in 1956

### GRAIN WEIGHED FROM TRUCKS

In Store .....	24,384 Trucks
----------------	---------------

NOTE: We weighed 29,155 Trucks in 1956

### AVERAGE NUMBER OF BUSHELS PER CAR—IN STORE

Wheat .....	1,831 Bushels
Corn .....	1,977 Bushels
Oats .....	2,541 Bushels
Rye .....	1,914 Bushels
Barley .....	2,226 Bushels
Soy Beans .....	1,779 Bushels
Kaffir .....	1,892 Bushels

(Continued Next Page)

## REPORT OF WEIGHING AND CUSTODIAN DEPT.—Continued

## SPECIAL WEIGHT INVESTIGATIONS

Received Cars .....	96
Shipped Cars .....	2

Each request for shortage investigation had our careful attention and every detail of the handling of the car at Chicago was gone into before a written report was made. In cases of extremely large shortages, the movements of the cars were traced through the Chicago Switching District and I might say that in many of these cases we found the cause for the shortage there.

---

CARS LEAKING

Received Cars (Grain only), 8% arrived leaking at the Unloading Elevators.

---

SCALE INSPECTIONS

During the year the Department tested 245 hopper scales, 98 track scales, 18 truck scales, sealed 191 sets of hanger weights and cleaned and recalibrated 12,000 pounds of test weights. Every Elevator's scales were tested at least twice during the year by the Department's own Scale Inspectors and we made 8 trips in the country at request of member Firms of the Board of Trade to test their country elevator scales.

---

CUSTODIAN DEPARTMENT

We Registered and held in Trust under the Provisions of the Custodian Regulations 3,955,270 bushels of various Grains during the past year. Last year it amounted to 6,613,747 bushels.

---

FEDERAL REGISTRATION

The Department Registered and held in Trust under Federal Warehouse Regulations 146,624,310 bushels of various grains during the past year. Last year it amounted to 137,520,394 bushels.

## REPORT OF BOARD OF TRADE CITY OF CHICAGO GRAIN SAMPLING AND SEED INSPECTION DEPARTMENT

Annual Report, covering the activities of the Grain Sampling and Seed Inspection Department of this Association, for the year ending December 31, 1957.

<b>GRAIN SAMPLED</b>		Number of Bushels
Out of store by lake vessels .....	781,074	
Out of store by barges .....	899,193	
Received by barges.....	9,807,999	
		Number of Cars
On track .....	63,719	
At elevators .....	13,097	
		Number of Cars
Approved for track delivery		
Oats .....	5	
<b>GRAIN TRANSFERRED INTRA HOUSE</b>		Number of Bushels
Wheat .....	36,691	
<b>REVENUE GRAIN NOT SAMPLED</b>		Number of Bushels
Boats loaded .....	15,122,161	
Barges loaded .....	2,038,659	
Boats unloaded .....	4,710,519	
Trucks and barges unloaded.....	41,817,434	
		Number of Cars
On track .....	979	
At elevators .....	29,700	
<b>OTHER COMMODITIES SAMPLED</b>		Number of Cars
Bulk millet seed.....	2	
		Number of Bags
Blue grass seed.....	273	
Red clover seed.....	800	
<b>OTHER ACTIVITIES</b>		Number
Cars tested for moisture.....	75,126	
Furnished samples tested for moisture.....	49	
Special samples analyzed .....	245	
Samples tested for germination .....	48	

## REPORT OF THE BOARD OF TRADE CITY OF CHICAGO

### PROVISIONS DEPARTMENT

Annual Report which covers the work done by the Provision Department for the year 1957. The total amount of Product serviced was 135,472,124 Pounds, detailed as follows:

#### INSPECTED

Green Meats .....	469,062 lbs.
Dry Salted Meats.....	1,694,142 lbs.
Frozen Meats .....	196,300 lbs.
Prime Steam Lard.....	56,803,791 lbs.
Dry Rendered Lard.....	15,920,000 lbs.

#### SAMPLED

Prime Steam Lard.....	3,540,000 lbs.
Dry Rendered Lard.....	640,000 lbs.
Miscellaneous Product .....	60,000 lbs.

#### WEIGHED

Green Meats .....	732,305 lbs.
Dry Salted Meats.....	780,528 lbs.
Frozen Meats .....	2,524 lbs.
Prime Steam Lard.....	24,206,251 lbs.

## REPORT OF BOARD OF TRADE CITY OF CHICAGO LEASED WIRE DEPARTMENT

The leased wire network and the commodity ticker service continued their successful operations through 1957 with a net increase of 23 tickers and six more cities were added to the network. The number of tickers in operation reached an all-time high of 704 in October and then following the generally lowered volume of futures business the number settled back to 687 at the end of the year. The following tabulation illustrates the growth of the system since the Association took over its management in 1950:

### Chicago Board of Trade Ticker System

Total number of Tickers on January 1, 1957.....	664
Net increase of Tickers for 1957.....	23
	<hr/>
Total number of Tickers on December 31, 1957.....	687
Total number of Tickers on May 1, 1950.....	371
	<hr/>
Net increase in Tickers since May 1, 1950.....	316
	<hr/> <hr/>
Number of cities served:	
May 1, 1950.....	145
December 31, 1957.....	262
	<hr/>
Increase .....	117
	<hr/> <hr/>

Once again a savings has been realized through efficient operation of the department and was passed on to our subscribers through reduced charges for December 1957.

The Exchange is continuing to investigate the possibilities of an automatic board-marking system and also an automatic system for taking the quotations from each pit and transmitting them over the ticker network. This automatic sequential transmission service should improve the public dissemination of quotations to a marked degree.

MEMBERSHIP

On December 31, 1957, the membership in the Association numbered 1422.

ASSESSMENT

The Assessment for the year 1957 was \$375.00, assessed as follows:

For capital expenditures .....	\$275.00
For operating expenditures .....	100.00
Total assessment .....	<u>\$375.00</u>

The \$100.00 assessed for operating expenditures is deductible for income tax purposes. The \$275.00 assessed for capital expenditures is not tax-deductible.

## NOTE TO BALANCE SHEET

Federal Income Tax Returns have been examined for all years prior to and including 1954. Exact determination of the status of 1953 and 1954 taxes, and a possible refund therefrom is not determinable pending receipt of official government report. In our opinion, no provision is required for Income Taxes for 1957. Possible adjustments as a result of Revenue Agents' examination of prior years may subsequently create a tax liability for 1957.

To the Board of Directors and Members of the Board of Trade  
of the City of Chicago:

We have examined the Balance Sheet of the Board of Trade of the City of Chicago as at December 31, 1957, and the Statements of Surplus, Income and Expenses, and Receipts and Disbursements of the Capital Expenditures Account for the year then ended. Our examination was in accord with generally accepted auditing practices applicable in the circumstances, and included such procedures as we considered necessary, but we did not make a detailed audit of all the accounts.

In our opinion, the foregoing statements, subject to the possible Federal Income Tax adjustments described in Note to Balance Sheet, fairly present the condition of the Board of Trade of the City of Chicago as at December 31, 1957, and the results of operations for the year, in conformity with generally accepted accounting practices consistently followed.

HIRAM E. DECKER Co.  
Certified Public Accountants

Chicago, Illinois.  
January 23, 1958.

## BOARD OF TRADE OF THE CITY OF CHICAGO

TREASURER'S REPORT OF  
CASH RECEIPTS AND DISBURSEMENTS

To the Directors of the  
Board of Trade of the City of Chicago:

As Treasurer of the Board of Trade of the City of Chicago, I report that:

I had on hand January 1, 1957:

For General Fund.....	\$ 396,878.85	
For Capital Expenditures Fund.....	<u>3,623.77</u>	\$ 400,502.62

I received in sundry deposits from the Office  
of the Secretary of the Board during the  
year 1957:

For General Fund.....	\$4,326,110.44	
For Capital Expenditures Fund.....	<u>716,456.25</u>	5,042,566.69
		<u>\$5,443,069.31</u>

I have paid checks drawn by the Secretary's  
Office and duly countersigned, as follows:

For General Fund.....	\$4,381,734.19	
For Capital Expenditures Fund.....	<u>687,549.09</u>	5,069,283.28

Leaving a balance on hand at December 31,  
1957:

For General Fund.....	\$ 341,255.10	
For Capital Expenditures Fund.....	<u>32,530.93</u>	<u>\$ 373,786.03</u>

JAMES B. FORGAN,  
*Treasurer.*

Balance in hand of Treasurer December 31, 1957:

For General Fund.....	\$ 341,255.10	
For Capital Expenditures Fund.....	<u>32,530.93</u>	\$ 373,786.03
Less: Checks issued, but outstanding.....		<u>47,295.82</u>

Balance on hand, as shown by Secretary's books:

For General Fund.....	\$ 293,959.28	
For Capital Expenditures Fund.....	<u>32,530.93</u>	<u>\$ 326,490.21</u>

- Seed in Bags..... 2 cts. per bag  
With a minimum charge for any sampling to be \$2.00.
- Bulk Seed, loading into or unloading from boats..... 60 cts. per 1,000 bushels

## BOARD OF TRADE DEPARTMENTS—Continued

## WEIGHING DEPARTMENT FEES

HARRY W. EWERT, *Weighmaster and Custodian*

## WEIGHING CHARGES

Effective October 1, 1955

## TO THE MEMBERS OF THE CHICAGO BOARD OF TRADE:

By order of the Board of Directors, the Fees for the Following Services will be in effect October 1, 1955, at the various Elevators, Mills, Malt Houses and Industries to which the Board of Trade Weighing Department Service Extends:

Received Cars .....	\$ 2.25 per car
Transferred Cars .....	2.50 per car
Shipped Cars .....	1.80 per car
To and from Vessels .....	.90 per M. Bus.
To and from Barges .....	.90 per M. Bus.
Intra-Plant Weighing .....	.45 per M. Bus.
Trucks .....	1.00 per Load
Seed in Sacks .....	.05 per Sack
Annual Custodian Service Charge .....	100.00
Custodian Certificates—Car Lot .....	.35 each
Custodian Certificates—Collateral .....	.35 each
Annual Federal Registration Service .....	100.00
Warehouse Receipts—"Registered" .....	.35
Minimum Daily Weighing Service Charge per Man .....	20.00

NOTE: Weighing Fees will be credited to this Charge each Month. However, the charge will be averaged over the calendar year. In further explanation: The \$20.00 per day Service Charge will be averaged in such a way so that over the calendar year the Department would never get less than the daily minimum and the Elevator Operator would never be charged a penalty should he have excess weighing fee credits in subsequent periods.

## PROVISION INSPECTION DEPARTMENT FEES

HARRY W. EWERT, *Chief Inspector and Registrar*

For inspecting lard—100 tierces or more.....	.06¼ per tierce

\*Includes durum wheat in States for which estimates are not shown separately.

\*\*This table covers corn for all purposes, including hogged and siloed corn, and that cut and fed without removing the ears, as well as that husked and snapped for grain. The yield for grain, with an allowance for varying yields of corn for other purposes, is applied to the total acreage to obtain an equivalent production expressed in terms of grain.

# 141

1939.....	23,805,000	237.9	11,817,000			

<sup>1</sup>Production ginned and to be ginned. A 500 pound bale contains about 480 net pounds of lint.<sup>2</sup>All other States are States where cotton production is insignificant. Sums of acreage and production for these other States were rounded to thousands for inclusion in U. S. Totals.

## SHEEP AND HOGS ON FARMS AND RANCHES

# UNITED STATES TARIFF DUTIES

*The following tariff duties on cereals and farm products applies on imports into the United States (as of January 1, 1958)*

	Tariff Rates
Wheat Flour... 5	52 cents per 100 lbs.
Wheat...	21 cents per bu. of 60 lbs.
*Corn...	25 cents per bu. of 56 lbs.
Oats...	4 cents per bu. of 32 lbs.
Rye Flour...	22½ cents per 100 lbs.
Rye... 4	6 cents per bu. of 56 lbs.
Barley...	7½ cents per bu. of 48 lbs.
Flaxseed... 3	50 cents per bu. of 56 lbs.
Soy Beans...	2 cents per lb.
Soy Bean Oil...	3½ cents per lb. but not less than 45 per cent ad Valorem
Buckwheat...	10 cents per 100 lbs.
Bran, Shorts, etc...	2½ per cent ad Valorem
Barley Malt... 1	30 cents per 100 lbs.
Rye Malt...	22½ cents per 100 lbs.
Hay...	\$1.12 per ton of 2,000 lbs.
Straw...	50 cents per ton of 2,000 lbs.
Sheep...	\$0.75 per head
Hogs...	1 cent per lb.
Lard...	3 cents per lb.

\*Seed corn, certified by a responsible officer or agency of a foreign Government in accordance with the rules and regulations of that Government to have been grown and approved especially for use as seed, in containers marked with the foreign Government's official certified seed corn tags. 12½¢ per bu. of 56 lbs.

\*Rye, a proclamation of the President (TD 53470) made under the authority of section 22 of the Agricultural Adjustment Act of 1933, as amended (7 USC 624), prescribes an absolute quota of 186,000,000 pounds of rye, rye flour, and rye meal, which may be entered, or withdrawn from warehouse, for consumption during the 12-month period beginning July 1, 1957 and 58 of which not more than 15,000 pounds may be in the form of rye flour or rye meal. During each such 12-month period, not more than 182,280,000 pounds shall be imported from Canada, and not more than 3,720,000 pounds shall be imported from other foreign countries. See proclamation for exceptions regarding certain seed rye.

\*Wheat, Flour, by a proclamation of the President (TD 50404) under the authority of section 22 of the Agricultural Adjustment Act of 1933, as amended (7 USC 624), imports for consumption of wheat flour fit for human consumption, with certain exception stated in TDs 50606 and 50863, are limited to annual quotas of 800,000 bushels of wheat and 4,000,000 pounds of flour. The allocation of these quotas for foreign countries is set forth in TD 50404.

\*Flaxseed, (except flaxseed approved for planting pursuant to the Federal Seed Act) is subject, in addition to the rate of duty stated above, to an import fee (duty) of 50 percent ad valorem, except that the import fee does not apply to articles imported by or for the account of any agency of the United States. The import fee was proclaimed by the President under the authority of section 22 of the Agricultural Adjustment Act of 1933, as amended (7 USC 624). —TD 53289.

## The duty on cattle is as follows:

Cattle weighing less than 200 lbs. each are dutiable at 1½ cent per lb., but the rate will be increased to 2½ cents per lb. for importations beyond 200,000 head entered in the 12 month period beginning April 1 in any year.

Cattle weighing 200 lbs. or more but less than 700 lbs. each are dutiable at 2½ cents per lb.

Other than cattle imported specially for dairy purposes (cattle specially for dairy purposes 1½ cents per lb.)

Effective on and after April 1, 1953, cattle weighing 700 lbs. or more each are dutiable at 1½ cents per lb. but the rate will be increased to 2½ cents per lb. on importations beyond 400,000 head entered in any 12 months period beginning April 1 in any year, and to more than 120,000 head entered in any three month period beginning April 1, July 1, October 1, January 1 within any such 12 month period.

# CANADIAN TARIFF DUTIES

*The following tariff duties on cereals and farm products applies on imports into Canada from the United States (as of January 1, 1958)*

CANADA TARIFF DUTIES	TARIFF DUTIES
Wheat Flour...	50 cents (Canadian) per barrel.
Wheat...	12 cents (Canadian) per bushel.
Corn...	8 cents (Canadian) per bushel.
Oats...	4 cents (Canadian) per bushel.
Rye...	6 cents (Canadian) per bushel.
Barley...	7½ cents (Canadian) per bushel.
Soybeans...	Free
(1) Cotton seed oil, crude, when imported to be refined for edible purposes...	10%
(2) Crude cotton seed oil, when imported by manufacturers of cotton seed meal and refined cotton seed oil, for use exclusively in the manufacture of such commodities, in their own factories...	10%
(3) Cotton seed oil for canning fish...	Free
(4) Cotton seed oil, n.o.p...	17½ %
(1) Soya bean oil for use in the processing of leather...	Free
(2) Soya bean oil for use in the manufacture of paints and varnishes...	Free
(3) Soya bean oil for use in the processing of textile fibres, including the finishing of fabrics...	Free
(4) Soya bean oil for manufacturing soap...	Free
(5) Soya bean oil for use in canning fish...	Free
(6) Soya bean oil, n.o.p...	20%
Flaxseed...	10 cents (Canadian) per bushel.
Hogs, live...	Other than for breeding—1 cent per pound
Lard...	1¾ cent per pound

## WHEAT HARVEST TIME OF THE WORLD

The following shows the month of the Wheat harvest in the Wheat growing sections of the world:

January .....	New Zealand and Chili.
February and March.....	East India, Upper Egypt.
April .....	Lower Egypt, Syria, Cyprus, Persia, Asia Minor, India and Mexico.
May .....	Algeria, Central Asia, China, Japan, Morocco and Texas.
June .....	Turkey, Greece, Italy, Spain, Portugal, South of France, California, Louisiana, Mississippi, Alabama, Georgia, Carolinas, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Missouri and Oklahoma.
July .....	Roumania, Bulgaria, Austria, Hungary, Czechoslovakia, South of Russia, Germany, Switzerland, France, South of England, Oregon, Nebraska, Minnesota, Wisconsin, Colorado, Washington, Iowa, Illinois, Indiana, Michigan, Ohio, New York, New England, Montana and Ontario, Canada.
August .....	Belgium, Holland, Great Britain, Denmark, Poland, Quebec, Western Canada, Columbia, North and South Dakota.
September and October...	Scotland, Sweden, Norway and North of Russia.
November .....	Peru, South Africa and Australia.
December .....	Burmah and Argentina.

---

## CORN HARVEST TIME OF THE WORLD

January .....	New South Wales.
March and April.....	Argentina.
April and May.....	South Africa.
September and October...	All European countries.
October .....	The crop of the United States is harvested principally in this month.

# FOREIGN WEIGHTS AND MEASURES

## UNITED KINGDOM

The following weights are now customary:

### ENGLAND

Foreign—

Wheat .....	480 lbs.
Maize .....	480 lbs.
Rye .....	480 lbs.
Barley:	
California, Oregon and Chilian.....	448 lbs.
Australian and New Zealand.....	448 lbs.
South African .....	448 lbs.
Smyrna and Turkish .....	448 lbs.
Austrian, Hungarian, Bohemian and Czechoslovakian.....	448 lbs.
Polish (Dantzic and Stettin).....	448 lbs.
Other Barley .....	400 lbs.
Oats .....	320 lbs.
Flour .....	280 lbs.
Linseed .....	2,240 lbs.
English Grain .....	112 lbs.
Or a multiple of 112 lbs., viz:	
Wheat .....	4½ cwts.
Barley .....	4 cwts.
Oats .....	3 cwts.
Beans .....	4¾ cwts.

In Liverpool and district the cental (100 lbs.) is generally in use.

### SCOTLAND

The unit 112 lbs. is generally in use. Old weights are the following:

A boll or bole is equal to 4 Winchester bushels. In Glasgow a boll represents 252 lbs. of wheat; 280 lbs. corn and peas; 320 lbs. barley and 264 lbs. oats.

A Wey is equal to 5 quarters; a Last to 10 quarters.

### IRELAND

The ton of 2,240 lbs. and the cwt. (112 lbs.) are in use. Also the following:

Wheat .....	280 lbs.
Maize .....	480 lbs.
Barley .....	224 lbs.
Oats .....	196 lbs.
Beans and Peas .....	280 lbs.
Flour .....	280 lbs.

## THE METRIC SYSTEM

WEIGHTS—A kilogramme (or kilo) is equal to 2 lbs. 3 ozs.

A quintal (100 kilos) is equal to 220.4622 lbs., avoirdupois.

A French tonne (10 quintals or 1,000 kilos) is equal to 2204.622 lbs. avoirdupois.

DRY MEASURE—A hectoliter is equal to 2.837 Winchester bushels;  
2.7496 Imperial bushels.

SURFACE MEASURE—A hectare is equal to 2.47105 English statute acres.

LONG MEASURE—A meter is equal to 1 yard 3.37011 inches.

A kilometer is equal to 1,093 yards, 1 foot, 10.11 inches.

## FOREIGN WEIGHTS AND MEASURES—Continued

## RUSSIA

A pood is equal to 36.112 lbs. avoirdupois.

A tchetvert is equal to 5.77 Imperial bushels, or 5.95 Winchester bushels.

A dessiatine is equal to 2.6996 acres.

A verst is equal to 0.663 of an English mile.

## AUSTRIA AND HUNGARY

A joch is equal to 1.422 acres.

A double centner is equal to a quintal, 220.46 lbs.

## DENMARK

A Tonde (drygoods) is equal to 3.825 Imperial bushels, or 3.948 Winchester bushels.

A Pund is equal to 1.102 lbs. avoirdupois.

A Tondeland is equal to 1.363 acres.

## GREECE

An ocque is equal to 2.756 lbs. avoirdupois.

A mn √ is equal to 3.3069 lbs. avoirdupois.

## EGYPT

A commercial oke at Alexandria is equal to 2.751 lbs. avoirdupois.

A cantar is equal to 99.05 lbs. avoirdupois.

In Cairo an ardeb of wheat, barley or corn is equal to 4.92 Imperial bushels, or 5.07375 Winchester bushels.

## CHINA

A catty is equal to 1.33 lbs. avoirdupois.

A picul is equal to 133 $\frac{1}{3}$  lbs. avoirdupois.

## JAPAN

A cho is equal to 2.4505 acres.

A koku is equal to 5.119 Winchester bushels, or 4.9602 Imperial bushels.

A Kwam-me is equal to 8.2672 lbs. avoirdupois.
